

WELCOME ABOARD

PLEASE STAND BY AS WE BUILD YOUR DIGITAL TRANSFORMATION ITINERARY AS WE ARE IN HIGH DEMAND (THIS MAY TAKE UP TO TWO WEEKS).

Congratulations on taking your first step onboard Jobes Epic Transformation! Digital transformation is the ultimate challenge in many organizations. That's why we have invented JETbox, a carefully constructed journey to ensure digital transformation goes as smoothly and seamlessly as possible.

The process consists of five (5) steps: Understanding, Curiosity, Discovery, Innovation, and Digital Optimization. These steps are vital to modernizing and innovating your organization, allowing you to streamline your workplace practices.

As you wait to take off, gathering your crew will be the first pre-flight step. As we work to develop your itinerary, we will send you some guidance on selecting the pilot, co-pilots, and over crew members. If others are taking this journey with you, please have each crew member print and scan the QR code in the boarding pass below.
